Rwy. G. W. H. CLARK, Great Falls, N. H.

Messas Henry P. Wilson & Co.; I deem Mrs. Wilson's Hair Regenerator and Hair Dressing the standard articles of all hair preparations. I have, in many instances, known them to restore the hair where it had fallen off, remove dandarff, restore the hair to its original color, cure entirely the most painful headaches—and in some instances most serious humors—Personally, I have been a sharer in several of these benefits.

MRS. WILSON'S COCOA-NUT OIL HAIR DRESSING

Mrs. Wilson's Hair Dressing is put up in large bottles, and retails for 37 cts. per bottle, and for dressing the hair of any person, young or old, there is not its equal in the world. It will make the hair everything you wish it to be, and moreover, it has a perfume that is infinitely superior to any of the fashionable extracts, either foreign or American, which alone should entitle it to a place on every lady's tollet table.

Use the Regenerator before retiring at night, and in the morning apply a little of the Dressing, and your hair will be even more lifelike in color and beauty.

Use nothing on your hair but these preparations, and use these according to directions, and we warrant you a good healthy head of hair.

THE ONLY DISCOVERY WORTHY OF ANY CONFIDENCE FOR

Restoring THE BALD AND GRAY

Many, since the great discovery of Prof. Wood, have attempted not only to imitate his restorative, but profess to have discovered comething that would produce results identical; but they have all come and gone, being carried away by the wonderful results of Prof. Wood's preparation, and have been forced to leave the field to its resistless sway. Read the following:

Bath, Maine, April 18th 1859.

Prof O. J. Wood & Co. Gents: The letter I wrote you in 1856. concerning your valuable flair Restorative, and which you have published in this vicinity and elsewhere, has given tise to numerous inquiries touching the lacts in the case. The inquiries are, first, is it a fact of my habitation and name, as stated in the communication; second, is it true of all therein contained; third does my hair still continue to be in good order and of natural color? To all I can and will answer invariably yes. My hair is even better than in any stage of my life for forty years past, more roft thrifty and better colored; the same is true of my whiskers, and the only cause why it is not generally true is that the substance is washed off by frequent ablution of the face, when if care were used by wiping the face, in close connection with the whiskers, the same result will follow as the hair. I have been in the receipt of a great number of letters from all parts of New England, asking me if my hair still continues to be good; as there is so much fraud in the manufacture and sail of various compounds as we'l as this, it has no doubt been basely imitated and been used, not only without any good Lut to absolu'e injury. I have not used any of your Restorative of any account for some months, and yet my hair is as good as ever, and hundreds have examined it with surprise, as I am now 61 years old and not a gray hair in my head or on my face; and to prove this fact. I send you a lock of my hair, taken off the yet my hair is as good as ever, and hundreds have examined it with surprise, as I am now 61 years old and not a gray hair in my head or on my face; and to prove this fact. I send you a lock of my hair, taken off the past week. I received your favor of two quart bottles isst Summer for which I am very grateful: I gave it to my triends and thereby induced them to try it, many were skepticle until after trial, and then purchased and used it with universal success. I will ask as a favor, that you send me a fest by which I can discover fraud in the Restorative, sold by many. I fear without authority from you. A pure article will insure-success and I believe where good effects, do not follow the failure is caused by the impure article which curses the ininventor of the good. I deem it my duty as heretofore to keep you apprised of continued. Heet on my hair, as I assure all who enquire of my unshaken opinion of its valuable results. I remain, dear sir, yours.

Aarons, Run Ky., Nov. 30 1853

Prof. O. J. world, the wonderful as well as the unexpected result I have experienced from using one bottle of your Hair Resterative, After using every kind of Restoratives extant, but without success, and finding my head nearly destitute of hair, I was finally induced to try a bottle of your Hair Restorative. Now candor and justice compel me to announce to whoever may read this, that I now possess a new and beautiful growth of hair, which I pronounce richer and handsomer than the original was. I will therefore take occasion to recommend this invaluable remedy to ALL who may feel the necessity of it.

Respectfully yours, REV. S. ALLEN BROCK.
P. S.—This testimonial of my approbation for your valuable medicine (as you are aware of) is unsolicited:—but if you hink it worthy a place among the rest, insert if you with; if not destroy and say nothing.

The Restorative is put up in bottles of three sizes, viz large medium, and small; the small holds 1/4 a pint and retails for one dollar per bottle; the mediums held at least twenty per cent, more in proportion than the small retails for two dollars per bottle; the large holds a quart. 40 per cent, more in proportion and retails for S3 a bottle. 5463 of them manufactured last year—more than double the number of any other first class stove in one year, in the United States.

THEY contain all the improvements which are in all the first class stoves, and the advantages and improvements over other stoves are in part as follows:

1st. The arrangement for broiling on the front heavth, —an improvement overlooked in other first class stoves. It has also the same arrangement for broiling on top.

2d. A thorough ventilation of the Oven.

3d. Introducing hot air draught to the fire chamber, thereby increasing the draught of the Stove, quickening its operations, and enabling it to throw out more heat—a matter much and justly complained of in other Stoves.

4th. An important improvement in the application of the damper, which throws the heat around the over.

5th. Auch greater weight, consequently heavier plates, and more durable as well as handsource castings.

6th. A draft damper at each end of the fire box, so that the fire is equalized, and one gridle will heat as quick as the other, also heating the oven in half the time.

She took only one bottle of your Compound and it cured her. She just as well now as she ever was. STEPHEN BARL LETT,
